SUMMARY SECTION

Investment Objective

The investment objective of the Slow Capital Growth Fund (the “Fund”) is to provide long-term capital appreciation.

Fees and Expenses of the Fund

The table below describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and example below.

Shareholder Fees <i>(fees paid directly from your investment)</i>	
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	None
Maximum Deferred Sales Charge (Load) (as a % of the lesser of amount purchased or redeemed)	None
Redemption Fee (as a % of amount redeemed within 90 days)	2.00%
Fee for Redemptions Paid by Wire	\$15

Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>	
Management Fees	0.50%
Other Expenses ¹	1.04%
Total Annual Fund Operating Expenses	1.54%
Fee Waiver/Expense Reimbursement ²	(0.54%)
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement	1.00%

1 Estimated for the current fiscal year.

2 The Adviser has contractually agreed to waive or limit its fees and to assume other expenses of the Fund until February 28, 2027, so that Total Annual Fund Operating Expenses does not exceed 1.00%. This contractual arrangement may only be terminated by mutual consent of the Adviser and the Board of Trustees of the Trust, and it will automatically terminate upon the termination of the investment advisory agreement between the Fund and the Adviser. This operating expense limitation does not apply to: (i) interest, (ii) taxes, (iii) brokerage commissions, (iv) other expenditures which are capitalized in accordance with generally accepted accounting principles, (v) other extraordinary expenses not incurred in the ordinary course of the Fund’s business, (vi) dividend expense on short sales, (vii) expenses incurred under a plan of distribution under Rule 12b-1, and (viii) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement, if applicable, incurred by the Fund in any fiscal year. The operating expense limitation also excludes any “Acquired Fund Fees and Expenses,” which are the expenses indirectly incurred by the Fund as a result of investing in money market funds or other investment companies, including ETFs, that have their own expenses. Each waiver or reimbursement of an expense by the Adviser is subject to repayment by the Fund within the three years following the date the particular expense payment occurred, provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of the waiver or reimbursement and the expense limitation in place at the time of the repayment.

Expense Example:

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$100,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year, and the contractual agreement to limit expenses remains in effect only until February 28, 2027. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<u>1 Year</u>	<u>3 Years</u>
\$1,020	\$3,775

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual operating expenses or in the example above, affect the Fund’s performance.

Principal Investment Strategies

Under normal circumstances, the Fund seeks to achieve its investment objective by investing at least 80% of the Fund's net assets (plus borrowings for investment purposes) in common stocks of companies that the Fund's adviser, Slow Capital, Inc. (the "Adviser"), believes have the potential for growth. The Fund invests in domestic common stocks, which may be of any market capitalization, although the Fund will focus on large- and mid-capitalization companies.

The Fund invests in the common stocks of U.S. companies. The Adviser selects companies that it believes have the potential for above-average growth of capital and sustained high rates of return. The key attributes of companies that the Adviser seeks for the Fund's portfolio are market and product leadership, sustainable market growth opportunities, and strong executive management teams.

The Adviser starts by using in-house research and other sources to gain insights across multiple sectors and markets. This research process involves:

1. Analyzing industry reports, academic papers, and expert interviews to identify emerging trends and disruptive technologies.
2. Conducting thorough reviews of company financial statements, earnings calls, and investor presentations.
3. Engaging in primary research, including customer surveys, product testing, and competitor analysis.
4. Leveraging big data analytics and artificial intelligence tools to process large volumes of market and consumer behavior data.

The Adviser constantly explores new and emerging trends to uncover potential investment opportunities. From this comprehensive research, the Adviser identifies a universe of superior companies across a range of industries.

Superior companies are businesses that the Adviser believes have:

- Significant market opportunities (both in terms of magnitude and duration) where the companies are leaders or potential leaders in their respective markets based on the Adviser's analysis of their respective markets, market share of the company, the company's product lines, and barriers to entry in the industry.
- Proprietary products and services, new product development and product cycle leadership that sustains a strong brand franchise based on the Adviser's analysis of a company's patent portfolio, product launch success, brand value, and pricing of the company's products.
- A strong management team that is proactive, consistently executes effectively and anticipates and adapts to change based on the Adviser's analysis of management's track record of meeting or exceeding goals, managements experience and expertise, the company's corporate governance practices, and management's ability to navigate industry changes.

From this universe, the Adviser selects companies it believes possess the ability to invest substantial capital at high and durable rates of return over several years. The Adviser is of the opinion that superior investment returns are achieved by focusing on companies with the potential to sustain above-industry-average growth rates for five years or more. In order to assess a company for these characteristics, the Adviser considers data related to: (i) the company's position within its product lifecycle, its ability to adjust pricing in response to market changes, and its diversification across products or regions; (ii) the company's historical and projected cash flow, looking for consistency and the ability to generate or scale toward sufficient surplus to substantially fund future expansion; and (iii) key drivers that could propel the company's future performance such as advancements in or the application of new technologies, as well as significant changes in regulation, management, or societal trends.

The Adviser utilizes its proprietary securities model to assess returns on invested capital and the variability of these returns. The model aligns company financials to measure the return on net operating assets and their variability, comparing them to the equity market rate of return. This process evaluates how effectively a company's operating assets are capitalized in the market. Key factors considered by the model include: (i) company financials, (ii) variability of returns, (iii) market comparisons, and (iv) valuation metrics (how the company's stock is valued relative to the market, its peers, and its own price history).

The Adviser continually monitors and review its selected companies with respect to their ongoing financial performance. This process is typically conducted in alignment with quarterly financial releases, allowing the Adviser to reassess and update its analysis with the most up-to-date information. Additionally, the Adviser performs interim reviews when significant new information becomes available, such as major company announcements or competitor developments. The Fund may sell a stock or reduce its position in a stock if: (i) the stock subsequently fails to meet the Adviser's initial investment criteria; or (ii) a more attractively priced stock is found or if assets are needed for other purposes.

Principal Risks

The principal risks of investing in the Fund are summarized below. There may be circumstances that could prevent the Fund from achieving its investment goal and you may lose money by investing in the Fund. You should carefully consider the Fund's investment risks before deciding whether to invest in the Fund. The order of the below risk factors does not indicate the significance of any particular risk factor and the relative significance of each risk below may change over time.

- **Stock Market Risk.** Overall stock market risks may affect the value of the Fund. Factors such as domestic and foreign economic growth and market conditions, interest rate levels, pandemics, natural disasters, and political events affect the securities markets. Movements in the stock market may affect adversely the specific securities held by the Fund on a daily basis, and, as a result, such movements may negatively affect the Fund's net asset value per share ("NAV"). When the value of the Fund's investments goes down, your investment in the Fund decreases in value and you could lose money.
- **Volatility Risk.** Common stocks tend to be more volatile than other investment alternatives. The value of an individual company can be more volatile than the market as a whole. This volatility affects the value of the Fund's shares.
- **Management Risk.** Fund management's skill in choosing appropriate investments will play a large part in determining whether the Fund is able to achieve its investment objective. To the extent appropriate investments are not chosen, the Fund may decline in value and you could lose money.
- **Growth Risk.** If the Adviser's perceptions of a company's growth potential are wrong, the securities purchased may not perform as expected, reducing the Fund's return.
- **Large-Cap Risk.** Large capitalization companies tend to be less volatile than companies with smaller market capitalization. This potentially lower risk means that the Fund's share price may not rise as much as share prices of funds that focus on smaller capitalization companies.
- **Small and Mid-Cap Risk.** The Fund may invest in securities of small and mid-cap companies, which involve greater volatility than investing in larger and more established companies. Small and mid-cap companies can be subject to more abrupt or erratic share price changes than larger, more established companies. Securities of these types of companies have limited market liquidity, and their prices may be more volatile. You should expect that the value of the Fund's shares will be more volatile than a fund that invests exclusively in large-capitalization companies.
- **Sector Risk.** The Adviser may allocate more of the Fund's investments to particular segments of the market. A particular market sector can be more volatile or underperform relative to the market as a whole. Stocks within the same group of industries will decline in price due to sector-specific, market or economic developments. To the extent that the Fund has over-weighted holdings within a particular sector, such as Information Technology, the Fund is subject to an increased risk that its investments in that particular sector may decline because of changing expectations for the performance of that sector.
- **Limited History of Operations Risk.** The Fund has a limited history of operations. Accordingly, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy, may not employ a successful investment strategy, or may fail to attract sufficient assets under management to realize economies of scale, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such a liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.
- **New Adviser Risk.** The Adviser has only recently begun serving as an investment advisor to mutual funds. As a result, investors do not have a long-term track record of managing a fund from which to judge the Adviser, and the Adviser may not achieve the intended result in managing the Fund.
- **Investment Risk.** Various sectors of the global financial markets have been experiencing an extended period of adverse conditions. Market uncertainty has increased dramatically, particularly in the United States and Europe, and adverse market conditions have expanded to other markets. These conditions have resulted in disruption of markets, periods of reduced liquidity, greater volatility, general volatility of spreads, an acute contraction in the availability of credit and a lack of price transparency. The long-term impact of these events is uncertain but could continue to have a material effect on general economic conditions, consumer and business confidence and market liquidity.

Major public health issues, such as COVID-19, have at times, and may in the future impact the Fund. The COVID-19 pandemic caused substantial market volatility and global business disruption and impacted the global economy in significant and unforeseen ways. Any public health emergency, including the COVID-19 pandemic or any outbreak of other existing or new epidemic diseases or the threat thereof, and the resulting financial and economic market uncertainty, could have a material adverse impact on the Fund or its investments. Moreover, changes in interest rates, travel advisories, quarantines, and restrictions, disrupted supply chains and industries, impact on labor markets, reduced liquidity or a slowdown in the U.S. or global economic conditions resulting from a future public health crisis may also adversely affect the Fund or its investments. COVID-19, or any other health crisis and the current or any resulting financial, economic, and capital markets environment, and future developments in these and other areas present uncertainty and risk with respect to the Fund's NAV, performance, financial condition, results of operations, ability to pay distributions, make share repurchases and portfolio liquidity, among other factors.

Economic problems in a single country are increasingly affecting other markets and economies, and a continuation of this trend could adversely affect global economic conditions and world markets. Uncertainty and volatility in the financial markets and political systems of the U.S. or any other country, including volatility as a result of the ongoing conflicts between Russia and Ukraine and Israel and Hamas and the rapidly evolving measures in response, may have adverse spill-over effects into the global financial markets generally.

- **Cybersecurity Risk.** The Fund and its service providers may be subject, directly or indirectly, to operational and information security risks resulting from breaches in cybersecurity that may cause the Fund to lose or compromise confidential information, suffer data corruption or lose operational capacity. Similar types of cybersecurity risks are also present for issuers of securities in which the Fund may invest, which may cause the Fund's investments in such companies to lose value. There is no guarantee the Fund will be successful in protecting against cybersecurity breaches.

An investment in the Fund is not a deposit at a bank and is not insured or guaranteed by any government agency.

Performance

Because the Fund has not been in operation for an entire calendar year, no Fund performance information is shown. You may request a copy of the Fund's annual and semi-annual reports, once available, at no charge by calling the Fund at 833-377-2715. Interim information on the Fund's results can be obtained by visiting www.slowcapitalfunds.com.

Performance data current to the most recent month end may be obtained from the Fund's website at www.slowcapitalfunds.com, or by calling 833-377-2715.

Portfolio Management

Investment Adviser – Slow Capital, Inc.

Portfolio Management Team

- Matthew Johnson, Portfolio Manager of the Fund since its inception in December, 2024; Chief Executive Officer (CEO) and Chief Investment Officer of the Adviser.
- Eric Mendez, Portfolio Manager of the Fund since its inception in December, 2024; Senior Portfolio Manager of the Adviser.

Purchase and Sale of Fund Shares

Minimum Initial Investment

\$100,000 for all account types

There is no minimum amount for subsequent investments.

To Place Buy or Sell Orders

By Mail: Slow Capital Growth Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, Ohio 45246-0707
By Phone: 833-377-2715

You can purchase shares of the Fund through broker-dealers or directly through the Fund's transfer agent. You may sell (redeem) your shares on any day the New York Stock Exchange is open, either directly through the Fund's Transfer Agent by calling 833-377-2715, or through your broker-dealer or financial intermediary. You may also redeem shares by submitting a written request to the address above.

Tax Information

The Fund's distributions are taxable and will be taxed as ordinary income, capital gains, or some combination of both, unless you are investing through a tax-advantaged account, such as a 401(k) plan, individual retirement account (IRA) or 529 college savings plan. Distributions from a tax-advantaged account may be subject to taxation at ordinary income tax rates when withdrawn from such an account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank or trust company), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT THE FUND'S PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The investment objective of the Fund is to provide long-term capital appreciation. The Fund's investment objective and 80% policy are not fundamental and may be changed without shareholder approval. The Fund will provide 60 days' advance notice of any change in the investment objective or a change to the Fund's 80% investment policy.

Principal Investment Strategies

Under normal circumstances, the Fund seeks to achieve its investment objective by investing at least 80% of the Fund's net assets (plus borrowings for investment purposes) in common stocks of companies that the Adviser, believes have the potential for growth. The Fund invests in domestic common stocks, which may be of any market capitalization, although the Fund will focus on large- and mid-capitalization companies.

The Fund invests in the common stocks of U.S. companies. The Adviser selects companies that it believes have the potential for above-average growth of capital and sustained high rates of return. The key attributes of companies that the Adviser seeks for the Fund's portfolio are market and product leadership, sustainable market growth opportunities, and strong executive management teams.

The Adviser starts by using in-house research and other sources to gain insights across multiple sectors and markets. This research process involves:

1. Analyzing industry reports, academic papers, and expert interviews to identify emerging trends and disruptive technologies.
2. Conducting thorough reviews of company financial statements, earnings calls, and investor presentations.
3. Engaging in primary research, including customer surveys, product testing, and competitor analysis.
4. Leveraging big data analytics and artificial intelligence tools to process large volumes of market and consumer behavior data.

The Adviser constantly explores new and emerging trends to uncover potential investment opportunities. From this comprehensive research, the Adviser identifies a universe of superior companies across a range of industries.

Superior companies are businesses that the Adviser believes have:

- Significant market opportunities (both in terms of magnitude and duration) where the companies are leaders or potential leaders in their respective markets. This is determined by:
 - Analyzing market size and growth projections;
 - Assessing the company's market share and competitive positioning;
 - Evaluating the company's product or service differentiation; and
 - Examining barriers to entry and the company's ability to maintain its market position.
- Proprietary products and services, new product development and product cycle leadership that sustains a strong brand franchise. This is evaluated through:
 - Review of the company's patent portfolio and R&D pipeline;
 - Analysis of the company's product launch success rate and time-to-market metrics;
 - Assessment of brand strength through customer loyalty metrics and brand value studies; and
 - Examination of the company's ability to command premium pricing.
- A strong management team that is proactive, consistently executes effectively and anticipates and adapts to change. This is assessed by:
 - Analyzing management's track record of meeting or exceeding stated goals;
 - Evaluating the team's experience and expertise in the industry;
 - Examining the company's corporate governance practices; and
 - Assessing the management's ability to navigate industry changes and economic cycles.

From this universe, the Adviser selects companies it believes possess the ability to invest substantial capital at high and durable rates of return over several years. The Adviser is of the opinion that superior investment returns are achieved by focusing on companies with the potential to sustain above-industry-average growth rates for five years or more. In order to assess a company for these characteristics, the Adviser considers data related to:

- **Product cycle, pricing flexibility, and product or geographic mix:** The Adviser examines the company's position within its product lifecycle, its ability to adjust pricing in response to market changes, and its diversification across products or regions. A strong and adaptable mix is essential for mitigating risks and capitalizing on growth opportunities.
- **Cash flow and financial resources to fund growth:** The Adviser evaluates the company's historical and projected cash flow, looking for consistency and the ability to generate or scale toward sufficient surplus to substantially fund future expansion. A minimum threshold for cash flow is set based on industry standards and the specific growth objectives of the company. Companies must demonstrate robust financial health, with adequate liquidity to sustain operations and invest in growth initiatives.
- **Catalysts for growth:** The Adviser identifies key drivers that could propel the company's future performance. These include advancements in or the application of new technologies, as well as significant changes in regulation, management, or societal trends. The Adviser assesses the company's readiness and capability to leverage these catalysts effectively. A qualitative and quantitative threshold is applied to ensure that these catalysts are substantial enough to impact the company's growth trajectory positively.

The Adviser utilizes its proprietary securities model to assess returns on invested capital and the variability of these returns. The model aligns company financials to measure the return on net operating assets and their variability, comparing them to the equity market rate of return. This process evaluates how effectively a company's operating assets are capitalized in the market. Key factors considered by the model include:

- **Company Financials:** Detailed analysis of financial statements to derive accurate measures of return on net operating assets.
- **Variability of Returns:** Assessment of how stable or volatile the returns on these assets are over time, providing insight into the consistency of the company's performance.
- **Market Comparisons:** The model compares these returns to the broader equity market rate of return, assessing the relative attractiveness of the company's shares.
- **Valuation Metrics:** The model also considers how the company's stock is valued relative to the market, its peers, and its own price history.

The Adviser continually monitors and review its selected companies with respect to their ongoing financial performance. This process is typically conducted in alignment with quarterly financial releases, allowing the Adviser to reassess and update its analysis with the most up-to-date information. Additionally, the Adviser performs interim reviews when significant new information becomes available, such as major company announcements or competitor developments. The Fund may sell a stock or reduce its position in a stock if: (i) the stock subsequently fails to meet the Adviser's initial investment criteria; or (ii) a more attractively priced stock is found or if assets are needed for other purposes.

Principal Risks of Investing in the Fund

The principal risks of investing in the Fund are summarized below. There may be circumstances that could prevent the Fund from achieving its investment goal and you may lose money by investing in the Fund. You should carefully consider the Fund's investment risks before deciding whether to invest in the Fund. The order of the below risk factors does not indicate the significance of any particular risk factor and the relative significance of each risk below may change over time.

- **Stock Market Risk.** The Fund invests in common stocks, which subjects the Fund and its shareholders to the risks associated with common stock investing. These risks include the financial risk of selecting individual companies that do not perform as anticipated, the risk that the stock markets in which the Fund invests may experience periods of turbulence and instability, and the general risk that domestic and global economies may go through periods of decline and cyclical change. Many factors affect the performance of each company that the Fund invests in, including the strength of the company's management or the demand for its products or services. You should be aware that a company's share price may decline as a result of poor decisions made by management or lower demand for the company's products or services. In addition, a company's share price may also decline as a result of national and global events such as recession, war, epidemics or pandemics, terrorism, natural disasters and other events which may have a significant impact on markets generally.

- **Risks of Investing in Common Stocks.** The Fund invests in common stocks, which subjects the Fund and its shareholders to the risks associated with common stock investing. These risks include the financial risk of selecting individual companies that do not perform as anticipated, the risk that the stock markets in which the Fund invests may experience periods of turbulence and instability, and the general risk that domestic and global economies may go through periods of decline and cyclical change. Many factors affect the performance of each company that the Fund invests in, including the strength of the company's management or the demand for its products or services. You should be aware that a company's share price may decline as a result of poor decisions made by management or lower demand for the company's products or services. In addition, a company's share price may also decline as a result of national and global events such as recession, war, epidemics or pandemics, terrorism, natural disasters and other events which may have a significant impact on markets generally.
- **Volatility Risk.** Common stocks tend to be more volatile than other investment alternatives. The value of an individual company can be more volatile than the market as a whole. This volatility affects the value of the Fund's shares.
- **Management Risk.** The Adviser's strategy may fail to produce the intended results. The Adviser's skill in choosing appropriate investments will play a large part in determining whether the Fund is able to achieve its investment objective. If the Adviser's projections about the prospects for a security are not correct, such errors in judgment by the Adviser may result in significant investment losses. Although the Adviser has experience managing discretionary accounts, the Adviser has no prior experience managing a mutual fund.
- **Growth Risk.** The Fund invests in companies that appear to be growth-oriented companies. Growth companies are companies that the Adviser believes will have revenue and earnings that grow faster than the economy as a whole, offering above-average prospects for capital appreciation. If the Adviser's perceptions of a company's growth potential are wrong, the securities purchased may not perform as expected, reducing the Fund's return.
- **Large-Cap Risk.** Large capitalization companies tend to be less volatile than companies with smaller market capitalization. This potentially lower risk means that the Fund's share price may not rise as much as share prices of funds that focus on smaller capitalization companies.
- **Small and Mid-Cap Risk.** The earnings and prospects of small and medium sized companies are more volatile than larger companies and may experience higher failure rates than larger companies. Small and medium sized companies normally have a lower trading volume than larger companies, which may tend to make their market price fall more disproportionately than larger companies in response to selling pressures and may have limited markets, product lines, or financial resources and lack management experience.
- **Sector Risk.** Although the Adviser does not expect to concentrate the Fund's investments in any particular sector, the Adviser may allocate more of the Fund's investments to particular segments of the market. A particular market sector can be more volatile or underperform relative to the market as a whole. Stocks within the same group of industries will decline in price due to sector-specific, market or economic developments. To the extent that the Fund has overweighted holdings within a particular sector, the Fund is subject to an increased risk that its investments in that particular sector may decline because of changing expectations for the performance of that sector.
- **Limited History of Operations Risk.** The Fund has a limited history of operations. Accordingly, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy, may not employ a successful investment strategy, or may fail to attract sufficient assets under management to realize economies of scale, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such a liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.
- **New Adviser Risk.** The Adviser has only recently begun serving as an investment advisor to mutual funds. As a result, investors do not have a long-term track record of managing a fund from which to judge the Adviser, and the Adviser may not achieve the intended result in managing the Fund.
- **Investment Risk.** The value of the Fund's investments, like other market investments, may move up or down, sometimes rapidly and unpredictably. All investments involve risks, including the risk that the entire amount invested may be lost. No guarantee or representation is made that the Fund's investment objectives will be achieved.

Various sectors of the global financial markets have been experiencing an extended period of adverse conditions. Market uncertainty has increased dramatically, particularly in the United States and Europe, and adverse market conditions have expanded to other markets. These conditions have resulted in disruption of markets, periods of reduced liquidity, greater volatility, general volatility of spreads, an acute contraction in the availability of credit and a lack of price transparency. These volatile and often difficult global market conditions have episodically adversely affected the market values of many securities, and this volatility may continue, and conditions could even deteriorate further. Some of the largest banks and companies across many sectors of the economy in the United States and Europe have declared bankruptcy, entered into insolvency, administration, or similar proceedings, been nationalized by government authorities, and/or agreed to merge with or be acquired by other banks or companies that had been considered their peers. The long-term impact of these events is uncertain but could continue to have a material effect on general economic conditions, consumer and business confidence and market liquidity.

Major public health issues, such as COVID-19, have at times, and may in the future impact the Fund. The COVID-19 pandemic caused substantial market volatility and global business disruption and impacted the global economy in significant and unforeseen ways. Any public health emergency, including the COVID-19 pandemic or any outbreak of other existing or new epidemic diseases or the threat thereof, and the resulting financial and economic market uncertainty, could have a material adverse impact on the Fund or its investments. Changes in interest rates, travel advisories, quarantines, and restrictions, disrupted supply chains and industries, impact on labor markets, reduced liquidity or a slowdown in the U.S. or global economic conditions resulting from a future public health crisis may also adversely affect the Fund or its investments. COVID-19, or any other health crisis and the current or any resulting financial, economic, and capital markets environment, and future developments in these and other areas present uncertainty and risk with respect to the Fund's NAV, performance, financial condition, results of operations, ability to pay distributions, make share repurchases and portfolio liquidity, among other factors.

Economic problems in a single country are increasingly affecting other markets and economies, and a continuation of this trend could adversely affect global economic conditions and world markets. Uncertainty and volatility in the financial markets and political systems of the U.S. or any other country, including volatility as a result of the ongoing conflicts between Russia and Ukraine and Israel and Hamas and the rapidly evolving measures in response, may have adverse spill-over effects into the global financial markets generally.

- **Cybersecurity Risk.** The Fund and its service providers may be subject, directly or indirectly, to operational and information security risks resulting from breaches in cybersecurity. A breach in cybersecurity refers to both intentional and unintentional events that may cause the Fund to lose or compromise confidential information, suffer data corruption or lose operational capacity. Breaches in cybersecurity include, among other things, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information or various other operational disruptions. Successful cybersecurity breaches of the Fund and/or the Fund's investment adviser, distributor, custodian, the transfer agent or other third party service providers may adversely impact the Fund and its shareholders. For instance, a successful cybersecurity breach may interfere with the processing of shareholder transactions, cause the release of private personal shareholder information, impede trading, subject the Fund to regulatory fines or financial losses, and/or cause reputational damage. The Fund relies on third-party service providers for many of the day-to-day operations, and is therefore subject to the risk that the protections and protocols implemented by those service providers will be ineffective in protecting the Fund from cybersecurity breaches. Similar types of cybersecurity risks are also present for issuers of securities in which the Fund may invest, which could result in material adverse consequences for such issuers and may cause the Fund's investments in such companies to lose value. There is no guarantee the Fund will be successful in protecting against cybersecurity breaches.

An investment in the Fund is not a deposit of any bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

As with any mutual fund investment, the Fund's returns will vary and you could lose money.

Temporary Defensive Positions

From time to time, the Fund may take temporary defensive positions that are inconsistent with its principal investment strategies, in attempting to respond to adverse market, economic, political or other conditions. In such instances, the Fund may hold up to 100% of its assets in cash; short-term U.S. government securities and government agency securities; investment grade money market instruments; investment grade fixed income securities; repurchase agreements; commercial paper and cash equivalents. The Fund may invest in the securities described above at any time to maintain liquidity, pending selection of investments by the Adviser, or if the Adviser believes that sufficient investment opportunities that meet the Fund's investment criteria are not available. By keeping cash on hand, the Fund may be able to meet shareholder redemptions without selling securities and realizing gains and losses. As a result of engaging in these temporary measures, the Fund may not achieve its investment objective.

Information about the Fund's policies and procedures with respect to disclosure of the Fund's portfolio holdings is included in the Statement of Additional Information ("SAI").

HOW TO BUY SHARES

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. This means that when you open an account, we will ask for your name, residential address, date of birth, government identification number and other information that will allow us to identify you. We may also ask to see your driver's license or other identifying documents, and may take additional steps to verify your identity. If we do not receive these required pieces of information, there may be a delay in processing your investment request, which could subject your investment to market risk. If we are unable to immediately verify your identity, the Fund may restrict further investment until your identity is verified. However, if we are unable to verify your identity, the Fund reserves the right to close your account without notice and return your investment to you at the NAV determined on the day in which your account is closed. If we close your account because we are unable to verify your identity, your investment will be subject to market fluctuation, which could result in a loss of a portion of your principal investment.

The minimum initial investment in the Fund is \$100,000 for all account types. The Adviser may, in its sole discretion, waive this minimum for accounts participating in an automatic investment program and in certain other circumstances. The Fund may waive or lower investment minimums for investors who invest in the Fund through an asset-based fee program made available through a financial intermediary. If your investment is aggregated into an omnibus account established by an investment adviser, broker or other intermediary, the account minimums apply to the omnibus account, not to your individual investment. The financial intermediary may also impose minimum requirements that are different from those set forth in this Prospectus. If you choose to purchase or redeem shares directly from the Fund, you will not incur charges on purchases and redemptions. However, if you purchase or redeem Shares through a broker-dealer or another intermediary, you may be charged a fee by that intermediary.

Initial Purchase

By Mail – To be in proper form, your initial purchase request must include:

- a completed and signed investment application form; and
- a personal check with name pre-printed (subject to the minimum amount) made payable to the Fund.

Mail the application and check to:

U.S. Mail:

Slow Capital Growth Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, Ohio 45246-0707

Overnight:

Slow Capital Growth Fund
c/o Ultimus Fund Solutions, LLC
225 Pictoria Drive, Suite 450
Cincinnati, Ohio 45246

By Wire – You may also purchase shares of the Fund by wiring federal funds from your bank, which may charge you a fee for doing so. To wire money, you must call Shareholder Services at 833-377-2715 to obtain instructions on how to set up your account and to obtain an account number.

You must provide a signed application to Ultimus Fund Solutions, LLC, the Fund's transfer agent, at the above address in order to complete your initial wire purchase. Wire orders will be accepted only on a day on which the Fund and its custodian and transfer agent are open for business. A wire purchase will not be considered made until the wired money is received and the purchase is accepted by the Fund. The purchase price per share will be the NAV next determined after the wire purchase is accepted by the Fund. Any delays, which may occur in wiring money, including delays that may occur in processing by the banks, are not the responsibility of the Fund or the transfer agent. There is presently no fee for the receipt of wired funds, but the Fund may charge shareholders for this service in the future.

Additional Investments

You may purchase additional shares of the Fund at any time by mail, wire, automated clearing house ("ACH"), or automatic investment. Each additional mail purchase request must contain:

1. Your name
2. The name on your account(s)
3. Your account number(s)
4. A check made payable to Slow Capital Growth Fund

Checks should be sent to the Fund at the address listed under the heading "Initial Purchase – By Mail" in this Prospectus. To send a bank wire, call Shareholder Services at 833-377-2715 to obtain instructions.

Automated Clearing House (ACH)

Current shareholders may purchase additional shares via ACH. To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

You may not use ACH transactions for your initial purchase of Fund shares. ACH purchases will be effective at the closing price per share on the business day after the order is placed. The Fund may alter, modify or terminate this purchase option at any time.

Automatic Investment Plan

You may make regular investments in the Fund with an Automatic Investment Plan by completing the appropriate section of the account application or completing a systematic investment plan form and attaching a voided personal check. Investments may be made monthly to allow dollar-cost averaging by automatically deducting \$100 or more from your bank checking account. You may change the amount of your monthly purchase at any time. If an Automatic Investment Plan purchase is rejected by your bank, your shareholder account will be charged a fee to defray bank charges.

Tax Sheltered Retirement Plans

Shares of the Fund may be an appropriate investment for tax-sheltered retirement plans, including: individual retirement plans (IRAs); simplified employee pension plans (SEPs); 401(k) plans; qualified corporate pension and profit-sharing plans (for employees); tax deferred investment plans (for employees of public school systems and certain types of charitable organizations); and other qualified retirement plans. You should contact Shareholder Services at 833-377-2715 for the procedure to open an IRA or SEP plan, as well as more specific information regarding these retirement plan options. Please consult with an attorney or tax adviser regarding these plans. You must pay custodial fees for your IRA by redemption of sufficient shares of the Fund from the IRA unless you pay the fees directly to the IRA custodian. Call Shareholder Services about the IRA custodial fees at 833-377-2715.

Other Purchase Information

The Fund may limit the amount of purchases and refuse to sell shares to any person. If your check or electronic payment does not clear, you will be responsible for any loss incurred by the Fund and charged a \$25 fee to defray bank charges. You may be prohibited or restricted from making future purchases in the Fund. Checks should be made payable to the Fund. The Fund and its transfer agent may refuse any purchase order for any reason. Cash, third party checks (except for properly endorsed IRA rollover checks), counter checks, starter checks, traveler's checks, money orders, credit card checks, and checks drawn on non-U.S. financial institutions will not be accepted. Cashier's checks, bank official checks, and bank money orders are reviewed on a case-by-case basis and may be accepted under certain circumstances. In such cases, a fifteen (15) business day hold will be applied to the funds, (which means that you may not redeem your shares until the holding period has expired).

The Fund has authorized certain broker-dealers and other financial institutions (including their designated intermediaries) to accept on its behalf purchase and sell orders. The Fund is deemed to have received an order when the authorized person or designee accepts the order, and the order is processed at the NAV next calculated thereafter. It is the responsibility of the broker-dealer or other financial institution to transmit orders promptly to the Fund's transfer agent.

If you invest in the Fund through an investment adviser, bank, broker-dealer, 401(k) plan, trust company or other financial intermediary, the policies and fees for transacting business may be different than those described in this Prospectus. Some financial intermediaries may charge transaction fees and may set different minimum investments or limitations on buying or selling shares. Some financial intermediaries do not charge a direct transaction fee, but instead charge a fee for services such as sub-transfer agency, accounting and/or shareholder services that the financial intermediary provides on the Fund's behalf. This fee may be based on the number of accounts or may be a percentage of the average value of the Fund's shareholder accounts for which the financial intermediary provides services. The Fund may pay a portion of this fee, which is intended to compensate the financial intermediary for providing the same services that would otherwise be provided by the Fund's transfer agent or other service providers if the shares were purchased directly from the Fund. To the extent that these fees are not paid by the Fund, the Adviser may pay a fee to financial intermediaries for such services.

To the extent that the Adviser, not the Fund, pays a fee to a financial intermediary for distribution or shareholder servicing, the Adviser may consider a number of factors in determining the amount of payment associated with such services, including the amount of sales, assets invested in the Fund and the nature of the services provided by the financial intermediary. Although neither the Fund nor the Adviser pays for the Fund to be included in a financial intermediary's "preferred list" or other promotional program, some financial intermediaries that receive compensation as described above may have such programs in which the Fund may be included. Financial intermediaries that receive these types of payments may have a conflict of interest in recommending or selling the Fund's shares rather than other mutual funds, particularly where such payments exceed those associated with other funds. The Fund may from time to time purchase securities issued by financial intermediaries that provide such services; however, in selecting investments for the Fund, no preference will be shown for such securities.

Inactive Accounts. If shareholder-initiated contact does not occur on your account within the timeframe specified by the law in your state of record, or if Fund mailings are returned as undeliverable during that timeframe, the assets of your account (shares and/or any uncashed checks) may be transferred to your last known recorded state of residence as unclaimed property, in accordance with specific state law. Investors who are residents of the state of Texas may designate a representative to receive legislatively required unclaimed property due diligence notifications. A Texas Designation of Representative Form is available for making such an election.

NOTE: If you fail to initiate such contact, your property will be escheated to your last known state of residency after which you will need to claim the property from that state.

Shareholder Fees. The following fees, when applicable, may be passed through to shareholders of the Fund.

Annual IRA Custodial Fee	\$25.00
Removal of excess contribution or Roth conversion/recharacterization	\$25.00
Outbound Wire	\$15.00
Returned ACH/Bounced Check	\$25.00
IRA Withdrawal Fee (transfer or redemption)	\$25.00
Overnight Delivery	\$35.00
Statement Retrieval Fee	\$25.00

HOW TO REDEEM SHARES

You may receive redemption payments by check, ACH or federal wire transfer. The proceeds may be more or less than the purchase price of your shares, depending on the market value of the Fund’s securities at the time of your redemption. If you redeem your shares through a broker/dealer or other financial institution, you may be charged a fee by that institution. You should consult with your broker-dealer or other financial institution for more information on these fees.

By Mail – You may redeem any part of your account in the Fund at no charge by mail. Your request should be addressed to:

U.S. Mail:

Slow Capital Growth Fund
 c/o Ultimus Fund Solutions, LLC
 P.O. Box 46707
 Cincinnati, Ohio 45246-0707

Overnight:

Slow Capital Growth Fund
 c/o Ultimus Fund Solutions, LLC
 225 Pictoria Drive, Suite 450
 Cincinnati, Ohio 45246

Your request for a redemption must include your letter of instruction, including the Fund name, account number, account names, the address, and the dollar amount or number of shares you wish to redeem. Requests to sell shares that are received in good order are processed at the NAV next calculated after the Fund receives your order in proper form. To be in good order, your request must be signed by all registered share owner(s) in the exact name(s) and any special capacity in which they are registered.

When you Need Medallion Signature Guarantees - The Fund may require that signatures be guaranteed. A Medallion Signature Guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted to a bank other than the bank of record; or
- your address was changed within 15 days of your redemption request

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies, and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. A notary public cannot guarantee signatures.

By Telephone – The telephone redemption privilege is automatically available to all new accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account. If you own an IRA, you will be asked whether or not the Fund should withhold federal income tax.

The redemption proceeds will be sent by mail to the address designated on your account or wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 833-377-2715. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of your telephone instructions. You may redeem shares up to \$50,000.

During periods of high market activity, you may encounter higher than usual wait times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. Neither the Fund nor its Transfer Agent will be held liable if you are unable to place your trade due to high call volume.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed with the previous 15 days. Neither the Fund, the Transfer Agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any such loss. The Fund and/or the transfer agent will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions, and/or recording telephone instructions.

By Wire – A wire transfer fee of \$15 is charged to defray custodial charges for redemptions paid by wire transfer. This fee is subject to change. Any charges for wire redemptions will be deducted from your Fund account by redemption of shares.

Systematic Withdrawal Plan - You (or a person you designate) may receive payments on a periodic basis in specified amounts of no less than \$100 each. Currently, there is no charge for this service; however, the Transfer Agent reserves the right to impose reasonable fees for this service, with 30 days' written notice. For additional information, please contact Shareholder Services at 833-377-2715.

Redemptions in Kind

Generally, all redemptions will be paid in cash. The Fund typically expects to satisfy requests by using holdings of cash or cash equivalents or selling portfolio assets. On a less regular basis, and if the Adviser believes it is in the best interest of the Fund and its shareholders not to sell portfolio assets, the Fund may satisfy redemption requests by using short-term borrowings from the Fund's custodian. These methods normally will be used during both regular and stressed market conditions. In addition to paying redemption proceeds in cash, the Fund reserves the right to make payment for a redemption in securities rather than cash, which is known as a "redemption in kind." If the amount you are redeeming is over the lesser of \$250,000 or 1% of the Fund's net assets, the Fund has the right to redeem your shares by giving you the amount that exceeds the lesser of \$250,000 or 1% of the Fund's net assets in securities instead of cash. A redemption in kind will consist of securities equal in market value to the Fund shares being redeemed, using the same valuation procedures that the Fund uses to compute its NAV. Redemption in kind transactions will typically be made by delivering readily marketable securities to the redeeming shareholder within 7 days after the Fund's receipt of the redemption order in proper form. Marketable securities are assets that are regularly traded or where updated price quotations are available. Illiquid investments are investments that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. Certain illiquid investments may be valued using estimated prices from one of the Valued Advisers Trust's (the "Trust") approved pricing agents. If the Fund redeems your shares in kind, it will value the securities pursuant to policies and procedures adopted by the Board of Trustees of the Trust (the "Board"). You will bear the market risks associated with maintaining or selling the securities that are transferred as redemption proceeds. In the event that an in-kind distribution is made, a shareholder may incur additional expenses, such as taxes or the payment of brokerage commissions, on the sale or other disposition of the securities received from the Fund.

Fund Policy on Market Timing

The Fund has been designed as a long-term investment and not as a frequent or short-term trading ("market timing") option. Market timing can be disruptive to the portfolio management process and may adversely impact the ability to implement investment strategies. In addition to being disruptive, the risks presented by market timing include higher expenses through increased trading and transaction costs; forced and unplanned portfolio turnover; large asset swings that decrease the ability to maximize investment return; and potentially diluting the value of the share price. These risks can have an adverse effect on investment performance.

Although the Fund does not encourage frequent purchases and redemptions, the Board has not adopted policies and procedures to detect and prevent market timing in the Fund because the Board does not believe that market timing is a significant risk to the Fund given the type of securities held in the Fund. Accordingly, the Fund will permit frequent and short-term trading of shares of the Fund. Although the Board does not believe that there is a significant risk associated with market timing for the Fund, the Fund cannot guarantee that such trading will not occur. Notwithstanding, the Fund reserves the right to refuse to allow any purchase by a prospective or current investor.

Additional Information

If you are not certain of the requirements for a redemption please call Shareholder Services at 833-377-2715. Redemptions specifying a certain date or share price cannot be accepted and will be returned. The length of time the Fund typically expects to pay redemption proceeds is similar regardless of whether the payment is made by check or wire. The Fund typically expects to pay redemption proceeds for shares redeemed within the following days after receipt by the transfer agent of a redemption request in proper form:

- For payment by check, the Fund typically expects to mail the check within one to three business days;
- For payment by wire, the Fund typically expects to process the payment within one to three business days.

Payment of redemption proceeds may take longer than the time the Fund typically expects and may take up to 7 days as permitted under the Investment Company Act of 1940. Under unusual circumstances as permitted by the Securities and Exchange Commission (the “SEC”), the Fund may suspend the right of redemption or delay payment of redemption proceeds for more than 7 days. When shares are purchased by check, the proceeds from the redemption of those shares will not be paid until the purchase check transfer has been converted to federal funds, which could take up to 15 calendar days. You may be assessed a fee if the Fund incurs bank charges because you request that the Fund re-issue a redemption check.

Redemption proceeds sent via check by the Fund and not cashed within 180 days will be reinvested in the Fund at the current day’s NAV. Redemption proceeds that are reinvested are subject to the risk of loss like any other investment in the Fund.

Because the Fund incurs certain fixed costs in maintaining shareholder accounts, the Fund may redeem all of your shares in the Fund on 30 days’ written notice if the value of your shares in the Fund is less than \$100,000 due to redemption, or such other minimum amount as the Fund may determine from time to time. You may increase the value of your shares in the Fund to the minimum amount within the 30 day period. All shares of the Fund also are subject to involuntary redemption if the Board determines to liquidate the Fund. In such event, the Board may close the Fund with notice to shareholders but without obtaining shareholder approval. An involuntary redemption will create a capital gain or capital loss, which may have tax consequences about which you should consult your tax adviser.

Retirement Plans - If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

DETERMINATION OF NET ASSET VALUE

The price you pay for your shares is based on the Fund’s NAV per share. The Fund’s NAV is calculated at the close of trading (normally 4:00 p.m. Eastern time) on each day the New York Stock Exchange (“NYSE”) is open for business (the NYSE is closed on weekends, most federal holidays and Good Friday). The Fund’s NAV is calculated by dividing the value of the Fund’s total assets (including interest and dividends accrued but not yet received) minus liabilities (including accrued expenses) by the total number of shares outstanding. Requests to purchase and sell shares are processed at the NAV next calculated after the Fund receives your order in proper form. In the event, the Fund holds portfolio securities that trade in foreign markets or that are primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares, the NAV of the Fund’s shares may change on days when shareholders will not be able to purchase or redeem the Fund’s shares.

Securities that do not have a readily available current market value are valued in good faith by the Adviser as “valuation designee” under the oversight of the Board. The Adviser has adopted policies and procedures for valuing securities and other assets in circumstances where market quotes are not readily available. In the event that market quotes are not readily available, and the security or asset cannot be valued pursuant to one of the valuation methods, the value of the security or asset will be determined in good faith by the Adviser. On a quarterly basis, the Adviser’s fair valuation determinations will be reviewed by the Board. The Adviser’s policy is intended to result in a calculation of the Fund’s NAV that fairly reflects security values as of the time of pricing. However, fair values determined pursuant to the Adviser’s procedures may not accurately reflect the price that the Fund could obtain for a security if it were to dispose of that security as of the time of pricing.

Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information, bid/asked information, broker quotes), including where events occur after the close of the relevant market, but prior to the close of the NYSE, that materially affect the values of the Fund’s securities or assets. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, an exchange or market on which a security trades does not open for trading for the entire day and no other market prices are available. The Adviser as valuation designee will monitor for significant events that may materially affect the values of the Fund’s securities or assets and for determining whether the value of the applicable securities or assets should be re-evaluated in light of such significant events.

DIVIDENDS, DISTRIBUTIONS AND TAXES

Dividends and Distributions. The Fund typically distributes to its shareholders as dividends all or substantially all of its net investment income and any realized net capital gains. These distributions are automatically reinvested in the Fund unless you request cash distributions on your application or through a written request to the Fund. The Fund expects that its distributions will consist primarily of income and net realized capital gains. The Fund declares and pays dividends at least annually. Net investment income distributed by the Fund generally will consist of interest income, if any, and dividends received on investments, less expenses. The dividends you receive, whether or not reinvested, will be taxed as ordinary income except as described below (including if reinvested in additional shares).

Unless you indicate another option on your account application, any dividends and capital gain distributions paid to you by the Fund will automatically be invested in additional shares of the Fund. Alternatively, you may elect to have: (1) dividends paid to you in cash and the amount of any capital gain distributions reinvested; or (2) the full amount of any dividends and capital gain distributions paid to you in cash. The Fund will send dividends and capital gain distributions elected to be received as cash to the address of record or bank of record on the applicable account. Your distribution option will automatically be converted to having all dividends and other distributions reinvested in additional shares if any of the following occur:

- Postal or other delivery service is unable to deliver checks to the address of record;
- Dividend and capital gain distribution checks are not cashed within 180 days; or
- Bank account of record is no longer valid.

For non-retirement accounts, dividend and capital gain distribution checks issued by the Fund that are not cashed within 180 days will be reinvested in the Fund at the current day's NAV. When reinvested, those amounts are subject to risk of loss like any other investment in the Fund.

Selling shares (including redemptions) and receiving distributions (whether reinvested or taken in cash) usually are taxable events to the Fund's shareholders, as discussed below.

Summary of Certain Federal Income Tax Consequences. The following information is meant as a general summary of the U.S. federal income tax provisions regarding the taxation of the Fund's shareholders. Additional tax information appears in the SAI. Shareholders should rely on their own tax adviser for advice about the federal, state, local and foreign tax consequences to them of investing in the Fund.

The Fund expects to distribute all or substantially all of its net investment income and net realized capital gain to its shareholders at least annually. Shareholders may elect to take dividends from net investment income or capital gain distributions, if any, in cash or reinvest them in additional Fund shares. The Fund intends to qualify annually to be treated as a regulated investment company (a "RIC") under Subchapter M of the Code. As such the Fund will not be taxed on amounts it distributes, and shareholders will generally be taxed on distributions, regardless of whether distributions are paid by the Fund in cash or are reinvested in additional Fund shares. Distributions to non-corporate investors attributable to ordinary income and short-term capital gains are generally taxed as ordinary income, although certain income dividends may be taxed to non-corporate shareholders as qualified dividend income at long-term capital gains rates provided certain holding period requirements are satisfied. Distributions of long-term capital gain are generally taxed as long-term capital gain, regardless of how long a shareholder has held Fund shares. Distributions may be subject to state and local taxes, as well as federal taxes.

Unless you are investing through a tax-deferred retirement account (such as a 401(k) or an IRA), you should consider avoiding a purchase of Fund shares shortly before the Fund makes a distribution, because making such a purchase can increase your taxes and the cost of the shares. This is known as "buying a dividend." For example: On December 15, you invest \$5,000, buying 250 shares for \$20 each. If the Fund pays a distribution of \$1 per share on December 16, its share price will drop to \$19 (not counting market change). You still have only \$5,000 (250 shares x \$19 = \$4,750 in share value, plus 250 shares x \$1 = \$250 in distributions), but you owe tax on the \$250 distribution you received — even if you reinvest it in more shares and have to pay the tax due on the dividend without receiving any cash to pay the taxes. To avoid "buying a dividend," check the Fund's distribution schedule before you invest.

The Fund may invest in foreign securities against which foreign tax may be withheld. If more than 50% of the Fund's assets are invested in certain foreign ETFs or foreign index mutual funds at the end of the year, the Fund's shareholders might be able to claim a foreign tax credit or take a deduction with respect to foreign taxes withheld.

Taxable distributions paid by the Fund to corporate shareholders will be taxed at the corporate income tax rate. Corporate shareholders may be entitled to a dividends-received deduction ("DRD") for a portion of the dividends paid and designated by the Fund as qualifying for the DRD provided certain holding period requirements are met.

In general, a shareholder who sells or redeems Fund shares will realize a capital gain or loss, which will be long-term or short-term depending upon the shareholder's holding period for the Fund shares, provided that any loss recognized on the sale of Fund shares held for six months or less will be treated as long-term capital loss to the extent of capital gain dividends received with respect to such shares. An exchange of shares may be treated as a sale and any gain may be subject to tax.

Ordinary income and capital gains distributions paid by the Fund, as well as gains or losses from any sale or exchange of Fund shares, may be subject to state and local income taxes.

The Fund may be required to withhold U.S. federal income tax (presently at the rate of twenty-four percent (24%)) on all taxable distributions payable to shareholders who fail to provide the Fund with their correct taxpayer identification number or to make required certifications, or who have been notified by the Internal Revenue Service (the "IRS") that they are subject to backup withholding. Backup withholding is not an additional tax; rather, it is a way in which the IRS ensures it will collect taxes otherwise due. Any amounts withheld may be credited against a shareholder's U.S. federal income tax liability.

Shareholders should consult with their own tax adviser to ensure that distributions and sales of Fund shares are treated appropriately on their income tax returns.

Federal law requires that mutual fund companies report their shareholders' cost basis, gain/loss, and holding period to the IRS on the Fund's shareholders' Forms 1099-B when "covered" securities are sold. Covered securities are any regulated investment company and/or dividend reinvestment plan shares acquired on or after January 1, 2012.

The Fund has chosen average cost as the standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Fund will determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing NAVs, and the entire position is not sold at one time. The Fund's standing tax lot identification method is the method covered shares will be reported on your Form 1099-B if you do not select a specific tax lot identification method. You may choose a method different than the Fund's standing method and will be able to do so at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate IRS regulations or consult your tax advisor with regard to your personal circumstances.

For those securities defined as "covered" under current IRS cost basis tax reporting regulations, the Fund is responsible for maintaining accurate cost basis and tax lot information for tax reporting purposes. The Fund is not responsible for the reliability or accuracy of the information for those securities that are not "covered." The Fund and its service providers do not provide tax advice. You should consult independent sources, which may include a tax professional, with respect to any decisions you may make with respect to choosing a tax lot identification method.

This section is only a summary of some of the important U.S. federal income tax considerations of taxable U.S. shareholders that may affect your investment in the Fund. This summary is provided for general information purposes only and should not be considered as tax advice and may not be relied on by a prospective investor. This general summary does not apply to non-U.S. shareholders or tax-exempt shareholders, and does not address state, local or foreign taxes. More information regarding these considerations is included in the Fund's SAI. All prospective investors and shareholders are urged and advised to consult their own tax adviser regarding the effects of an investment in the Fund on their particular tax situation.

MANAGEMENT OF THE FUND

Adviser. Slow Capital, Inc., 300-B Drakes Landing Rd Suite 190, Greenbrae, CA 94904, serves as investment adviser to the Fund. The Adviser has overall supervisory management responsibility for the general management and investment of the Fund's portfolio. The Adviser registered as an investment adviser in 2017. The Adviser serves high net-worth individuals and other clients, and, as of December 31, 2023, had assets under management of approximately \$733 million. The Adviser is controlled by Matthew Johnson, its Chief Executive Officer.

The Fund is required to pay the Adviser a fee equal to 0.50% of the Fund's average daily net assets. A discussion of the factors that the Board considered in approving the Fund's advisory agreement will be available in the Fund's report on Form N-CSR for the period ended April 30, 2025. The Adviser has contractually agreed to waive or limit its fees and to assume other expenses of the Fund until February 28, 2027, so that Total Annual Fund Operating Expenses does not exceed 1.00%. This contractual arrangement may only be terminated by mutual consent of the Adviser and the Board, and it will automatically terminate upon the termination of the investment advisory agreement between the Fund and the Adviser. This operating expense limitation does not apply to: (i) interest, (ii) taxes, (iii) brokerage commissions, (iv) other expenditures which are capitalized in accordance with generally accepted accounting principles, (v) other extraordinary expenses not incurred in the ordinary course of the Fund's business, (vi) dividend expense on short sales, (vii) expenses incurred under a plan of distribution under Rule 12b-1, and (viii) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement, if applicable, incurred by the Fund in any fiscal year. The operating expense limitation also excludes any "Acquired Fund Fees and Expenses," which are the expenses indirectly incurred by the Fund as a result of investing in money market funds or other investment companies, including ETFs, that have their own expenses. Each waiver or reimbursement of an expense by the Adviser is subject to repayment by the Fund within the three years following the date the particular expense payment occurred, provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of the waiver or reimbursement and the expense limitation in place at the time of the repayment.

Portfolio Managers. Matthew Johnson and Eric Mendez are jointly and primarily responsible for the day-to-day management of the Fund.

Matthew Johnson has served as the Chief Executive Officer (CEO) and Chief Investment Officer (CIO) of the Adviser since 2017. During this period, he has been responsible for overseeing the firm's strategic direction, investment strategy, and overall management. His role includes leading the investment team, making key investment decisions, and ensuring that the firm's goals align with the best interests of its clients.

Eric Mendez has been the Senior Portfolio Manager at the Adviser since 2018. In this role, he has been instrumental in managing the firm's portfolios, conducting in depth research and analysis, and contributing to the development and implementation of investment strategies. His responsibilities also include client interactions and ensuring that the portfolios' investment objectives are met consistently.

The Fund's SAI provides additional information about the Fund's portfolio managers, including their compensation structure, other accounts managed, and ownership of shares of the Fund.

FINANCIAL HIGHLIGHTS

Financial highlights for the Fund are not available because, as of the effective date of this Prospectus, the Fund has not commenced operations and therefore has no financial highlights to report.

FOR MORE INFORMATION

You can find additional information about the Fund in the following documents:

Annual and Semi-Annual Reports: While this Prospectus describes the Fund's potential investments, the Annual and Semi-Annual Reports detail the Fund's actual investments as of their report dates. The Annual report includes a discussion by Fund management of recent market conditions, economic trends, and investment strategies that significantly affected Fund performance during the reporting period. Paper copies of the reports are no longer sent by mail, unless you specifically request paper copies of the shareholder reports from the Fund or from your financial intermediary. You may elect to receive all future reports in paper format, free of charge by contacting your financial intermediary or, if you hold your shares directly, by calling the Fund toll-free at 833-377-2715 or writing to the Fund at Slow Capital Growth Fund, Valued Advisers Trust, c/o Ultimus Fund Solutions, LLC, 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246.

Statement of Additional Information: The SAI supplements the Prospectus and contains detailed information about the Fund and its investment restrictions, risks, policies, and operations, including the Fund's policies and procedures relating to the disclosure of portfolio holdings by the Fund's affiliates. A current SAI for the Fund is on file with the SEC and is incorporated into this Prospectus by reference, which means it is considered part of this Prospectus.

How to Obtain Copies of Other Fund Documents

You can obtain free copies of the current SAI and the Fund's Annual and Semi-Annual Reports, and request other information about the Fund or make shareholder inquiries, in any of the following ways:

You can get free copies of the current Annual and Semi-Annual Reports, as well as the SAI, by contacting Shareholder Services at 833-377-2715. You may also request other information about the Fund and make shareholder inquiries. The requested documents will be sent within three business days of receipt of the request. These documents are also available on the Fund's website at www.slowcapitalfunds.com.

You may also obtain reports and other information about the Fund on the EDGAR Database on the SEC's Internet site at <http://www.sec.gov>.
